

BANARAS HINDU UNIVERSITY

Under Graduate — Semester II Examination, 2025-26 (NEP)

Value Added Course (VAC)**Paper Code: BHUVA-22 : Environmental Science (End Term)**

Time: 1.5 Hours

Maximum Marks: 70

REF NO. 260718 / 260719

Instructions: Answer all 70 Multiple Choice Questions. Each question carries equal marks (1 mark each).

Question 1. Environmental Science is best defined as: [1]

- (1) The study of human society only
- (2) The study of physical and biological components of the environment and their interactions
- (3) The study of industrial processes
- (4) The study of extraterrestrial bodies

Question 2. Which of the following natural resources is renewable? [1]

- (1) Petroleum
- (2) Solar Energy
- (3) Coal
- (4) Natural Gas

Question 3. The main goal of the Paris Agreement (2015) is to: [1]

- (1) Reduce greenhouse gas emissions to limit global warming below 2°C
- (2) Protect endangered species from illegal trade
- (3) Promote space exploration
- (4) Increase coal mining

Question 4. What is the full form of GMO? [1]

- (1) Green Modified Organism
- (2) Genetically Modified Organism
- (3) Globally Managed Object
- (4) Genetically Managed Option

Question 5. Which human activity is the primary cause of deforestation? [1]

- (1) Agricultural expansion and logging
- (2) Ecotourism
- (3) Afforestation
- (4) Rainwater harvesting

Question 6. What does GMO stand for in biotechnology? [1]

- (1) Green Modified Organism
- (2) Genetically Modified Organism
- (3) Globally Managed Object
- (4) Genetically Managed Option

Question 7. The largest tropical rainforest in the world is: [1]

- (1) Amazon Rainforest
- (2) Congo Rainforest
- (3) Daintree Rainforest
- (4) Southeast Asian Rainforest

Question 8. Which energy source was most responsible for early industrialization? [1]

- (1) Solar energy
- (2) Wind energy
- (3) Coal
- (4) Nuclear energy

Question 9. Which organization is responsible for disaster management in India? [1]

- (1) NHAI
- (2) NDMA
- (3) RBI
- (4) ICAR

Question 10. What do environmental laws regulate? [1]

- (1) Air quality
- (2) Water quality
- (3) Wildlife protection
- (4) All of the above

Question 11. Who is considered the founder of modern environmentalism? [1]

- (1) Rachel Carson
- (2) Aldo Leopold
- (3) John Muir
- (4) Henry David Thoreau

Question 12. The Chernobyl nuclear disaster occurred in which year? [1]

- (1) 1979
- (2) 1986
- (3) 2011
- (4) 1999

Question 13. Which significant environmental awareness day is celebrated globally on June 5th? [1]

- (1) International Labour Day
- (2) International Day for Biological Diversity
- (3) World Environment Day
- (4) Earth Day

Question 14. The solid outer layer of the Earth is called: [1]

- (1) Atmosphere
- (2) Hydrosphere
- (3) Lithosphere
- (4) Biosphere

Question 15. Which of these is not included in the Red List of Threatened Species? [1]

- (1) Vulnerable
- (2) Near Threatened
- (3) Extinct
- (4) Less Endangered

Question 16. Which of these is a book related to pesticides and environmental pollution written by Rachel Carson? [1]

- (1) A poison like no other
- (2) Nanoworld
- (3) Silent Spring

(4) The Substance of Civilization

Question 17. How many Sustainable Development Goals (SDGs) were established by the UN? [1]

(1) 10

(2) 15

(3) 17

(4) 20

Question 18. Which historical industrial disaster occurred in Bhopal, India in 1984? [1]

(1) Bhopal Gas Tragedy (Methyl Isocyanate leak)

(2) Chernobyl Nuclear Accident

(3) Exxon Valdez Oil Spill

(4) Fukushima Disaster

Question 19. The term for all life forms and their global habitats on Earth is: [1]

(1) Biosphere

(2) Lithosphere

(3) Hydrosphere

(4) Atmosphere

Question 20. The term 'Ecosystem' was coined by: [1]

(1) Ernst Haeckel

(2) A. G. Tansley

(3) Eugene Odum

(4) Ramdeo Misra

Question 21. Pandemics are best described as: [1]

(1) Disease limited to a single village

(2) Disease affecting a city

(3) Disease spreading across countries or continents

(4) Non-infectious disease

Question 22. Which layer of the atmosphere is the coldest? [1]

(1) Troposphere

(2) Stratosphere

- (3) Mesosphere
- (4) Thermosphere

Question 23. IUCN stands for: [1]

- (1) International Union for Conservation of Natural Resources
- (2) International Unit of Conventional Nomenclature
- (3) International Union of Carbohydrates and Nucleic Acids
- (4) International Union for Conservation of Nature

Question 24. Noise pollution is measured in: [1]

- (1) Hertz
- (2) Decibel (dB)
- (3) Joule
- (4) Pascal

Question 25. Global warming is mainly caused by an increase in atmospheric concentrations of: [1]

- (1) Oxygen
- (2) Nitrogen
- (3) Carbon Dioxide (CO₂)
- (4) Ozone

Question 26. The Neolithic period is most closely associated with which major human-environment interaction? [1]

- (1) Nomadic hunting and food gathering
- (2) Beginning of agriculture and domestication of animals
- (3) Industrial manufacturing
- (4) Urbanization and smart cities

Question 27. Which of the following is an abiotic component of an ecosystem? [1]

- (1) Bacteria
- (2) Algae
- (3) Temperature
- (4) Plants

Question 28. Which environmental issue results from excessive burning of fossil fuels? [1]

- (1) Soil erosion

- (2) Acid rain
- (3) Earthquakes
- (4) Tsunami

Question 29. Excessive noise pollution mainly affects: [1]

- (1) Soil fertility
- (2) Human health and hearing
- (3) Water cycle
- (4) Atmospheric pressure

Question 30. Natural capital degradation refers to: [1]

- (1) Soil erosion
- (2) Aquifer depletion
- (3) Water pollution
- (4) All of the above

Question 31. What is the full form of EPA? [1]

- (1) Environmental Provisioning Agency
- (2) Environmental Protection Authority
- (3) Environmental Prevention Authority
- (4) Environmental Protection Agency

Question 32. One major consequence of global climate change is: [1]

- (1) Stable sea level
- (2) Melting of glaciers and polar ice caps
- (3) Increase in forest cover
- (4) Reduction in solar radiation

Question 33. Which International Agreement aims specifically to protect the ozone layer? [1]

- (1) Kyoto Protocol
- (2) Paris Agreement
- (3) Montreal Protocol
- (4) Rio Declaration

Question 34. Primary consumers in a food chain are: [1]

- (1) Carnivores
- (2) Herbivores
- (3) Decomposers
- (4) Omnivores

Question 35. Sustainable Development Goals (SDGs) were adopted by the United Nations in: [1/]

- (1) 2000
- (2) 2010
- (3) 2015
- (4) 2020

Question 36. Bishnoi Movement in Rajasthan was aimed at protecting: [1/]

- (1) Khejri trees and wildlife
- (2) Rivers
- (3) Mining sites
- (4) Agricultural lands

Question 37. Which of the following is a non-renewable energy resource? [1/]

- (1) Coal
- (2) Solar energy
- (3) Wind energy
- (4) Hydro energy

Question 38. Rapid urbanization often results in: [1/]

- (1) Increased waste generation and infrastructure strain
- (2) Improved biodiversity
- (3) Unplanned deforestation reduction
- (4) Lower energy consumption

Question 39. Ex-situ conservation methods include: [1/]

- (1) Botanical gardens and seed banks
- (2) National Parks
- (3) Wildlife Sanctuaries
- (4) Biosphere Reserves

Question 40. For the conservation of wetlands, which international treaty was signed? [1]

- (1) Stockholm Convention
- (2) Ramsar Convention
- (3) Bonn Convention
- (4) Vienna Convention

Question 41. Urbanization refers to: [1]

- (1) Decline in city population
- (2) Growth of rural population
- (3) Increase in urban population and expansion of cities
- (4) Development of traditional agriculture

Question 42. Decomposers in an ecosystem mainly include: [1]

- (1) Plants
- (2) Animals
- (3) Bacteria and Fungi
- (4) Algae

Question 43. Which biome is known for the highest biodiversity and dense tree canopy? [1]

- (1) Tropical Rainforest
- (2) Tundra
- (3) Desert
- (4) Temperate Grassland

Question 44. Biodiversity represents: [1]

- (1) Variety of ecosystems
- (2) Genetic variation within species
- (3) Number and variety of species in a habitat
- (4) All of the above

Question 45. Which terrestrial ecosystem is characterized by permafrost and absence of trees? [1]

- (1) Desert
- (2) Grassland
- (3) Tundra

(4) Tropical Forest

Question 46. The boundary between troposphere and stratosphere is called: [1]

- (1) Tropopause
- (2) Stratopause
- (3) Mesopause
- (4) Thermopause

Question 47. High concentration of particulate matter ($PM_{2.5}$) in the air primarily causes: [1]

- (1) Respiratory diseases
- (2) Water pollution
- (3) Soil erosion
- (4) Noise pollution

Question 48. Which energy source produces zero carbon emissions during operation? [1]

- (1) Solar and Wind power
- (2) Coal power plants
- (3) Diesel generators
- (4) Natural gas

Question 49. Which acid is primarily responsible for Acid Rain? [1]

- (1) Sulfuric acid (H_2SO_4) and Nitric acid (HNO_3)
- (2) Hydrochloric acid (HCl)
- (3) Acetic acid (CH_3COOH)
- (4) Citric acid

Question 50. The primary goal of waste management hierarchy is: [1]

- (1) Reduce, Reuse, Recycle
- (2) Incinerate all waste
- (3) Dump waste in oceans
- (4) Store waste underground
