

**B.Sc. (Hons.) First Semester Practical Examination 2024–25
(NEP)**

DEPARTMENT OF COMPUTER SCIENCE

**Paper Code: CSCMN12 : Computer Science Minor Practical (Lab Exercises
based on CSCMN11)**

Time: 3 Hours

Max. Marks: 50

Note: Write clean, well-commented C programs for the following practical problems. Show output format clearly.

1. Write a C program to input a 3×3 matrix from the user, calculate its determinant, and find its Inverse Matrix if the determinant is non-zero. [15]
2. Write a C program to take your First Name and Last Name as two separate strings. Perform the following operations:
 - (a) Join these two strings with an in-between space and store it in a third string variable.
 - (b) Find and display the sum of ASCII values of all vowels (a, e, i, o, u, case-insensitive) present in the combined string.[15]
3. Write a C program to find and display the sum of n terms of a Fibonacci series using a **recursive function**. [20]
