

BANARAS HINDU UNIVERSITY

B.Sc. (Hons.) — Semester IV Examination, 2013-14

Paper: GRB-403A — Basics of Remote Sensing (Ancillary Course)

Time: 3 Hours

Maximum Marks: 70

Ref. No.: BS/Sem IV/142

*Instructions: Answer **five** questions in all. Question No. 1 carrying 20 marks, is compulsory. Remaining questions are of equal marks.*

Question 1. Write short answer of the following: [20]

- (i) Principal and Nadir Points
- (ii) Rayleigh Scattering
- (iii) Microwave Band
- (iv) Passive Remote Sensing
- (v) Advantages of Remote Sensing

Question 2. Define Remote sensing and describe various Processes involved in it. [12.5]

Question 3. Define Electro Magnetic Radiation (EMR) and describe its interaction with atmosphere. [12.5]

Question 4. What do you understand by Spectral Signature? Discuss the main features of the spectral reflectance of vegetation, water, and soil. [12.5]

Question 5. Describe the various types of aerial photographs. [12.5]

Question 6. Discuss in detail the various elements of image interpretation. [12.5]

Question 7. Explain the different types of sensor resolution with examples. [12.5]

Question 8. Mention the general characteristics of remote sensing platforms. [12.5]

Question 9. Elucidate on the application of remote sensing in resource mapping. [12.5]
