

BANARAS HINDU UNIVERSITY

B.Sc. (Hons.) — II Semester Examination, 2013-14

Paper: BSC-05A — Elements of Earth Science (Ancillary)

Time: 3 Hours

Maximum Marks: 70

Ref. No.: BS/Sem II/17 (Old)

*Instructions: Answer **five** questions in all, selecting at least **two** from each of Sections A and B. Question No. 8 is compulsory. All questions carry equal marks.*

SECTION — A

Question 1. Describe the geological work of wind. [14]

Question 2. Explain what you understand by Earth System Science and mention the various branches involved in it. [14]

Question 3. What is a fault? With neat diagrams, describe the different types of faults. [14]

Question 4. Write explanatory notes on **any two** of the following: [2 × 7 = 14]

- (a) Isostasy
- (b) Mountain building
- (c) Sedimentary rocks

SECTION — B

Question 5. Describe **any two** of the following: [2 × 7 = 14]

- (a) Solar System
- (b) Earth's magnetism
- (c) Radioactivity in the Earth

Question 6. Write short notes on the following: [3.5 × 4 = 14]

- (a) Folds
- (b) Moraines
- (c) Deltas
- (d) Types of plates

Question 7. Write the chemical composition and physical properties of **any two** of the following minerals: [2 × 7 = 14]

- (a) Feldspar
- (b) Quartz
- (c) Biotite
- (d) Garnet

SECTION — C (Compulsory)

Question 8. Answer the following questions:

(i) **Write True or False:**

[7 × 1 = 7]

- (a) Himalayas are a resultant of plate tectonics.
- (b) The study of earthquakes is called Seismology.
- (c) Density of the crust is more than the density of the mantle.
- (d) Conglomerate is an example of an igneous rock.
- (e) Diamond is the hardest of all minerals.
- (f) The science of fossils is known as Paleontology.
- (g) Gondwanaland is the name of a supercontinent.

(ii) **Fill in the blanks:**

[7 × 1 = 7]

- (a) V-shaped valleys are formed due to the geological work of _____.
- (b) Hardness of talc on Mohs' scale is _____.
- (c) Give any example of a glacial deposit: _____.
- (d) The golden age of dinosaurs is the _____ period in the geological time scale.
- (e) The surface of erosion and non-deposition is termed as _____.
- (f) Life appeared on the Earth about _____ years ago.
- (g) The chemical composition of calcite is _____.
